Using a Guided Math format there is still time for whole-group, but you invest your efforts and resources into meeting with small-groups of students each day. Teaching 1st grade for the first time, I was using whole-group math with a single math center at the end of our math block. Three years ago our 1st grade team transitioned from a transitional math block to a guided math block. By far, reading was our strongest subject and our reading growth has been amazing. While we were growing in math, it was definitely not at our reading rate. So, we started to compare the 2 blocks. For reading,...I am so excited about guided math!!) This year I am venturing into something new. I really want to move away from teaching math as a whole group to teaching it in small groups. I learned from my class last year that there is such a wide variety of skill levels in first grade. Each Guided Lesson, spanning Preschool through 5th grade, features different resources—games, songs, stories, exercises—in a specially designed flow that gradually builds on each activity. Even better, you can easily check in each child's journey with Progress Tracker.
