Dudnik- Editor and a great selection of related books, art and collectibles available now at [AbeBooks.com](http://AbeBooks.com). Anatomy of a Personal Injury Case in New York. From the time that you are injured by the negligence or misconduct of another, until you finally receive compensation for your injuries from the responsible party, many months may go by. This is normal, and you should not expect your personal injury case to settle very quickly,... In cases of serious personal injury, the defense lawyer may wish to have the plaintiff examined by its doctors. This is known as an Independent Medical Evaluation (IME). Here's a brief look at how a personal injury trial unfolds: First, a jury of 12 people are selected to hear the case. The jury comes from a pool of citizens from all walks of life. Anatomy of a Personal Injury Case. The parties are free to settle the case at any time during the lawsuit process. Rather, it just means that the parties are at a "stale-mate" in the negotiations. Your lawyer will draft the lawsuit, file it with the proper court, and serve the suit papers on the other driver. The Anatomy of a Personal Injury Lawsuit. Understanding the legal process and how long each step takes will allow you to have realistic expectations and know when you can expect to collect damages, either through a settlement agreement or a court judgment.
