

Download Case Scenario For Nursing Care Plan

Running head: NURSING CARE FOR A PATIENT SCENARIO Case Study – Nursing Care for a Patient Scenario (Mrs. Jones) Customer's Name Academic Institution Critical care nursing is a complicated and rewarding field in which to work. The patients are critically ill and require specialized care for the best outcomes. Nursing Care Plan. This assignment aims to implement a hypothetical nursing care plan for a patient that I been involved with recently whilst on clinical placement. I have used a published nursing model in order for me to apply an appropriate nursing care plan for my chosen patient. I will explain my reasoning for the purposed care, whilst also including an explanation of how pathophysiology ... This nursing care plan for vomiting includes a diagnosis and care plan for nurses with nursing interventions and outcomes for the following conditions: Risk for Fluid Volume Deficient & Acute Pain. Patients with who experience vomiting can easily become dehydrated and experience abdominal pain. Electrolytes, urinary output, and patient mental status should be monitored routinely.
