

Download Citroen Bx Suspension Manual

The Citroën BX is a large family car which was produced by the French manufacturer Citroën from 1982 to 1994. In total, 2,315,739 BXs were built during its 12-year history. The hatchback was discontinued in 1993 with the arrival of the Xantia, but the estate continued for another year. The BX was designed to be lightweight, using particularly few body parts, including many made from plastics. Hydropneumatic suspension is a type of motor vehicle suspension system, designed by Paul Magès, invented by Citroën, and fitted to Citroën cars, as well as being used under licence by other car manufacturers, notably Rolls-Royce (Silver Shadow), Maserati (Quattroporte II) and Peugeot. It was also used on Berliet trucks and has more recently been used on Mercedes-Benz cars, where it is known ... Citroën's hydropneumatic* suspension, despite a reputation for complexity, complication and unreliability is actually very simple in operation and very reliable and furthermore, offers an unrivalled level of comfort coupled with excellent handling and grip. *The system is also referred to as 'oléopneumatique' in early literature. Its Really Powerfull By Jamal. my car is exclusive edition V6 3600cc ,285hp with manual gearbox the interior is just gorgeous but exterior it is the worst by the looks it has fully haydrolic suspensions it is really fun to dri...
