

Download Colloidal Silver Manual

Make Colloidal Silver as good as the CS you buy in the stores for just \$1 a litre. The Australian Silver Well Generator is automatic and super value. Over a year and a half in development, this brand new unit represents a bona-fide breakthrough in colloidal silver-making technology. Compared to standard home colloidal silver generators which produce silver particles ranging in size between five to 20 microns, the new Micro-Particle Colloidal Silver Generator produces silver particles that are a fraction of a single micron in size. Don't get me wrong. I love colloidal silver. It is a wonderful natural antibiotic that I have relied on for many years to keep my family healthy and away from the use of any and all conventional antibiotics – 15 years and counting. Click the image above to learn more about the Micro-Particle Colloidal Silver Generator that allows you to make high-quality colloidal silver for less than 36 cents a quart, and is so easy to use, even my 88 year old mom uses one!
