

Download Dacor Dive Computer Manual

I recently purchased a used Dacor Omni Pro air integrated dive computer on ebay. This model is discontinued. I'm looking for the owners manual which is unavailable through the manufacturer. A dive computer, personal decompression computer or decompression meter is a device used by an underwater diver to measure the time and depth of a dive so that a safe ascent profile can be calculated and displayed so that the diver can avoid decompression sickness.. Most dive computers use real-time ambient pressure input to a decompression algorithm to indicate the remaining time to the no ...A buoyancy compensator, also called a buoyancy control device, BC, BCD, stabilizer, stabilisor, stab jacket, wing or ABLJ depending on design, is a piece of diving equipment with an inflatable bladder which is worn by divers to establish neutral buoyancy underwater and positive buoyancy on the surface, when needed. The buoyancy is controlled by adjusting the volume of air in the bladder.??56?? ?????????????64?? ?????????????82?? ??68??05?6??06?12??07?27??
