

# **Download Employment Of Nurses Study Of The National Health Service**

This paper is a report of a study conducted to examine issues associated with the impact of age on the retention of female primary and community care nurses in the National Health Service in England. The average salary for a Nursing Assistant at The National Health Service (NHS) is £16,551. Visit PayScale to research nursing assistant salaries by city, experience, skill, employer and more. In recent years the British National Health Service (NHS) has experienced an acute shortage of qualified nurses. This has placed issues of recruitment and retention in the profession high on the political agenda. National Health Services (NHS) of United Kingdom (England) requires the services of Staff Nurses (Male/Female) on attractive salary/terms and conditions of employment under a UK trust Sponsor Tier 2 visa for 3 years.
