Sign languages (also known as signed languages) are languages that use the visual-manual modality to convey meaning. Language is expressed via the manual signstream in combination with non-manual elements. Sign languages are full-fledged natural languages with their own grammar and lexicon. This means that sign languages are not universal and they are not mutually intelligible, although there ...The United Nations Financial Regulations and Rules, as promulgated by Secretary-General's Bulletin ST/SGB/2013/4 dated 1 July 2013, govern the procurement functions of the United Nations.
