University of California, Berkeley. Materials Science and Engineering encompasses all natural and man-made materials – their extraction, synthesis, processing, properties, characterization, and development for technological applications. CHAPTER 1 LABORATORY SAFETY The following are a set of safety rules that are commonly practiced in materials science and engineering labs: 1. Safety glasses/goggles must be worn in all labs when any experiments are running (especially those in-Proposed Syllabus For B.Tech Program in Materials Science and Metallurgical Engineering By C.S.J.M.University,Kanpur The Engineering Laboratory promotes U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology for engineered systems in ways that enhance economic security and improve quality of life.
