The Mercedes-Benz SL-Class is a grand touring car manufactured by Mercedes since 1954. The designation SL derives from the German Sportlich-Leicht, (English: Sport Lightweight). The original idea was suggested by American importer Max Hoffman, who perceived a market for a toned-down Gran Prix car tailored to affluent performance enthusiasts in the booming post-war American market, which ...The Mercedes-Benz E-Class is a range of executive cars manufactured by German automaker Mercedes-Benz in various engine and body configurations. Produced since 1953, the E-Class falls midrange in the Mercedes line-up, and has been marketed worldwide across five generations. Before 1993, the E in Mercedes-Benz nomenclature was a suffix following a vehicle's model number which stood for ...Diesel Mercedes-Benz cars, SUV and Sprinter vans equipped with BlueTEC engines are one of the most advanced diesel engines in the world. High-pressure fuel injection system and variable geometry turbochargers ensure optimal combustion. Replacing the alternator on a Mercedes Benz should not take more than 2 hours. If you are doing it yourself for the first time you should be able to do it in around 3 or 4 hours, so plan on a Saturday morning.
