The company history began in 1928, when the Nichi-Doku Shashinki Shoten ("Japanese-German Photo Pompany") was founded. The first camera manufactured by this company was the "Nifcalette" (NIFCA being an acronym for Nippon Foto Cameras). The company name changed several times: in 1931 it became Molta; in 1937 it became Chiyoda; and in 1962 it was changed again to Minolta. Minolta (????, minoruta) was a Japanese company that, under one name or another, manufactured cameras from 1929 to 2003. It produced cameras for many film formats, from 16mm film to medium format. In the 1950s Chiyoda, as it was then called, ventured beyond production of cameras and binoculars into business services, and eventually into photocopiers.-- ORPHAN CAMERAS.COM --The M.
