

# Download Psa And Prostate Cancer Cancer Etiology Diagnosis And Treatments

INTRODUCTION — Prostate cancer is common and a frequent cause of cancer death. In the United States, prostate cancer is the most commonly diagnosed visceral cancer; in 2018, there are expected to be approximately 165,000 new prostate cancer diagnoses and approximately 29,000 prostate cancer deaths [1]. Prostate cancer is second only to nonmelanoma skin cancer and lung cancer as the leading ... Revised 29 November 2010. The standard method of early detection for prostate cancer is the digital rectal examination (DRE) which should be done annually in fit men 50-70 years or if obstructive or other urinary tract symptoms are present. Prostate cancer is the most common noncutaneous cancer in men in the United States. An estimated one in six white men and one in five African-American men will be diagnosed with prostate cancer in their lifetime, with the likelihood increasing with age. I watched my PSA creep up from 5, over 15 years ago to over 23.5 in June of this year, just after I had had an attack of Urinary Retention. I kept a graph with all my PSA test readings on it over the 10 years, and what my doctor was more interested in, was the rate of climb, rather than any absolute value (if the difference between two readings shows an increase greater than 25% then you can get ...
