

Download Raising A Teenager Parents And The Nurturing Of A Responsible Teen

Parenting or child rearing is the process of promoting and supporting the physical, emotional, social, and intellectual development of a child from infancy to adulthood. Parenting refers to the intricacies of raising a child and not exclusively to the biological relationship. The most common caretaker in parenting is the biological parent(s) of the child in question, although others may be an ...As children become teenagers, their brains grow and change, which affects thinking and behaviour. Read how to help with healthy teenage brain development. Understanding your child is one of the most important things that you should learn as a parent. It is very helpful in becoming effective in guiding and nurturing your child as they grow and mature. You need to bear in mind that your child has a unique personality trait that remains consistent throughout life.
