Concept 14: Elimination Test Bank MULTIPLE CHOICE 1. A patient who was diagnosed with senile dementia has become incontinent of urine. The patient's daughter asks the nurse why this is happening. The best response by the nurse is: a. The patient is angry about the dementia diagnosis. b. The patient is losing sphincter control due to the dementia. Time is the indefinite continued progress of existence and events that occur in apparently irreversible succession from the past, through the present, to the future. Time is a component quantity of various measurements used to sequence events, to compare the duration of events or the intervals between them, and to quantify rates of change of quantities in material reality or in the conscious ...
