Katherine Hayles is known for breaking new ground at the intersection of the sciences and the humanities. The Power of the Cognitive Nonconscious. N. Katherine Hayles is known for breaking new ground at the intersection of the sciences and the humanities. In Unthought, she once again bridges disciplines by revealing how we think without thinking—how we use cognitive processes that are inaccessible to consciousness yet necessary for it to function. Unthought: The Power of the Cognitive Nonconscious - Kindle edition by N. Katherine Hayles. Download it once and read it on your Kindle device, PC, phones or tablets. Use features like bookmarks, note taking and highlighting while reading Unthought: The Power of the Cognitive Nonconscious. Unthought: The Power of the Cognitive Nonconscious brings these concerns into a larger landscape, applies them to the vast curriculum of the humanities, and assuages me that other, smarter people, have wrestled with this fear before:
